SAMPLE REPORT

Average response to this group of questions: 22

The following charts present numeric data in quartiles, values that divide a list of numbers into quarters.

25th Percentile/first quartile = 25% of the data falls below this percentile.

50th Percentile/Median = The median represents the middle number where 50% of answers are lower and 50% are higher.

75th Percentile/third quartile = 75% of the data falls below this percentile. The data displayed on the following charts represent the total responses in the database based on the filter options selected.

On each of the horizontal bar graphs, the answers you provided are indicated bar a gray bar.
